

PMA-L210

POLE MOUNT ADAPTER

Pole Mount Adapter to suit non-SEE brackets

The PMA-L210 is designed for Pelco brackets and housings. The bracket offers more strength than the original pole mount and is anti-corrosive due to the stainless steel construction.

INSTALLATION SUPPORT

This Bracket is designed to provide the installer with the flexibility of where the cable enters and exits.

It is suggested that the required amount of fixings should withstand up to 20kg of weight. Additionally the choice of fixing should depend on the type of bracket or fixing it is fixed to.

The bracket is designed for NON—Strongabuilt and SEE designed housings. To determine if this bracket is suited to your camera, please contact us.
