

CMH02WM

CORRECTIONAL SERVICES HOUSINGS

Ceiling wall mount high security enclosure.

The CMH Series of corner mount and CMH02WM wall mount housings have been designed for Correctional centre applications. Featuring rugged construction, tamper resistance and with no centre projections the enclosures limit self harm issues.

The CMH02WM is a compact body ceiling wall mount enclosure taking up less space than triangular housings that enclose similar sized cameras. This product is designed to be wall mounted with the top positioned against the ceiling.

The CMH02WM is designed to suit standard and larger camera and lens combinations such as Panasonic, Sony and Ikegami.

OPTIONS

All housings are supplied with adjustable camera mounts. Tamper switches are available for all models as an optional extra.

Refer to housing Dimensions on page 43.

APPLICATIONS

Correctional services housing for mounting against ceiling and wall.
